I've waited all of my life for you
I would have waited forever
Now it all seems clear now that you are here
That we could make it together

I know the heart is a restless thing
We bear the scars of our sorrows
With the pride that was lost as our passions were
crossed
Gives us hope for tomorrow

And we've been through it all
We've been hurt before but we've come too far
to close that door!

It's too late to go back through the years
It's too late to cry all the tears
I know its late baby " but there's still time for us
Cause it's never too late for love!

I had a vision of happiness
But I guess it was all an illusion
I lived alone in a cold fortress
Behind a wall of confusion

Now I see I was wrong not to swallow my pride
And I knew all along I was wasting time

It's too late to go back through the years
It's too late to cry all the tears
I know its late baby " but there's still time for us
Cause it's never too late for love!

There's only so much time " so much life to live,
baby
We've got so much left to give and it's never
too late

We've been through it all " we've been hurt
before
But we've come too far to close, to close that door

It's too late to go back through the years
It's too late to cry all the tears
I know its late baby " but there's still time for us
Cause it's never too late for love!

It's too late to go back through the years
It's too late to cry all the tears
I know its late baby " but there's still time for us
Never too late, never too late for love

(It's never, never, never too late)
Never too late
(It's never, never, never too late)
Never too late for love!
