I need to reach out and make you understand
I'm not just a lonely heart in the palm of your hand
Can you feel it baby you take my breath away
Each night I hold you girl the world has no time
Is love a chance of fate is my heart on the line
I was a blind man and now you're all that I see

[Bridge]

Well, I've been waiting for you
All of my life
This feeling inside is too strong to fight
One look in your eyes and I know it's a fact
This time it's forever there's no turning back

[Refrain]

When love leads the way two hearts never stray
We're one night and day
When love baby when love leads the way

I feel you tremble with every touch of your hand
You want to run away well run if you can
From this feeling
but you won't get very far

[Bridge]

'Cause baby tonight
This love that we found
Will take us
to heaven
We'll never come down

[Refrain]

When love leads the way two hearts never stray
We're one night and day
When love baby when love leads the way

[Bridge]

if we follow our hearts day after day
Our love will know the way

[Refrain]

When love leads the way
Two hearts never stray
We're one night and day
When love leads the way

When love leads the way two hearts never stray
We're one night and day
When love baby when love leads the way

When love leads the way two hearts never stray
We're one night and day
When love baby when love leads the way
