

Harem Scarem "Afterglow"

Visit "[Afterglow](#)" on MotoLyrics.com

A glow remains when a light is disappearing
If it's our fate then we better seal it
Right or wrong
I don't wanna deal with it or feel this
Time is up
We'll just move on and let it be
There were some highs and some lows
We're living in the afterglow
Since I burned out on you
The gloves are off and I don't even feel it
Calm and numb was never so appealing
What went wrong now I don't even see it
I regret hanging on to a ghost already gone
And maybe there will be days when I don't think I'll
make it through
And maybe there will be phases I don't know I'm going
through
And I don't feel
Calm and numb was never so appealing
