Well you think that you know someone  
After all this time but you don't  
And there's no worse feeling  
Not knowing if they have your back  
Or your throat  
Now you couldn't fake it  
Pretending you were the one  
Now there's no mistaking  
The damage that you've done  
Like a dagger in my heart  
I feel my pain alone  
Like a dagger in my heart  
I feel nohing at all  
Now you've shown your colors  
And shred your skin  
And I don't like what I see  
And you've let the world know  
Just who you are  
And good is something that you can't be  
Now your world is shakin'  
Cause everything has come undone  
As the rules are changing  
And there's damage to be done
