I've got a question..  
I've got a question..

Where are the weapons of mass destruction?  
We been lookin' for months and we ain't found nothin'  
Please Mr. President, tell us something  
We knew from the beginning that your ass was  
bluffing!

[Mr. Lif]

How unfortunate, it wasn't what you thought it kid, in  
basic training  
They taught you how to slay man as a start-up kit  
and you showed up with a gun to load up  
Hopin' a college education's waitin', maybe a steady  
occupation  
Now you're weighing many lives against yours  
President orders, got you on course, with holocaust,  
Sargent is lost  
General's boss, plans cross, now you in the crosshair  
of a sniper's shaky scared, shot of your ear  
All fucked up now! one round just hit him in his from  
some young yet expendable citizen  
He's from the other side of the line, fightin' for time  
Time to see his kids walk, time to talk with his pops  
Time to have a rational thought without the thought of  
bein' shot  
(Damn) his gun jammed now you gotta bombard  
It's a soldier's suicide slide - know you tried hard to  
stay alive  
When you're catching fire from both sides  
and we miss you at home, its time the government truly  
left you alone  
Dropped you off and popped one in your dome  
Now we've seen it in Iraq and the Congo - America's  
motto  
"Kill their leader then we build a stronghold!!"

Where are the weapons of mass destruction?  
We been lookin' for months and we ain't found nothin'  
Please Mr. President, tell us something

We knew from the beginning that your ass was bluffing!

[Akrobatik]

I never thought of this the day that I enlisted  
That I'd be dodging bullets, seekin weapons that never even existed  
For someone else's personal beef, I risk myself  
While the Commander-in-Chief, would never come to fight himself  
I feel I'm bein' tricked even worse than the civilians  
Nobody ever told me that we would be killin' children!!  
Feelin like the ones that sent me here are the psychotics  
but if I say that out loud -- I'm "unpatriotic"  
but would Donald Rumsfeld back me up with the chrome?  
Would Tom Ridge fight or would he stay secure back home?  
and would Condoleeza Rice cover grenades in a fox hole?  
I'm startin to believe what I was told is not so  
What's the reason for the war?  
I'm shootin at these people that I got not animosity for  
I wonder if I'm just a pawn in someone else's struggle  
or a here even though I'm just a small piece of the puzzle  
I know that when I finally return where I reside  
I'll make up for the months my wife and moms cried  
and carry on for all my fallen brothers that died  
but you can't take my pride -- cuz I'm a fuckin' SOLDIER

Where are the weapons of mass destruction?  
We been lookin' for months and we ain't found nothin'  
Please Mr. President, tell us something  
We knew from the beginning that your ass was bluffing!

Where are the weapons of mass destruction?
