Did you leave looking for places to hide  
Big mistake setting the bar to high  
If I knew that the sun would rise on the other side  
Yeah you're the only thing I know  
Oh no you can't escape me for ever  
Oh no you can't escape your whole life  
I never get a chance cause you only run and hide  
Everyday is a rollercoaster ride  
You're gonna break keeping it all inside  
If I knew that the sun would rise on the other side  
Yeah you're the only thing I know  
Oh no you can't escape me for ever  
Oh no you can't escape your whole life  
I never get a chance cause you only run and hide
