Headlines detach us from the world
Throwing all compassion overboard
Like big flies circling the corpse
It's getting more disgraceful than before
What will we ride, when this horse dies?
We'll eat the shit and jump in with both feet in the fire
Rubbing ignorance into our eyes, we're blind, so blind
To all the world's injustice, we're so blind
In their sick minds they justify it all
Emotionally straying from the course
For the big prize a hundred million whores
Raping all humanity and more
What will we ride, when this horse dies?
We'll eat the shit and jump in with both feet in the fire
Rubbing ignorance into our eyes, we're blind, so blind
To all the world's injustice got both feet in the fire
Rubbing ignorance into our eyes, we're blind, so blind
To all the world's injustice we're so blind
To all the world's injustice we're so blind
What will we ride, when this horse dies?
We'll eat the shit and jump in with both feet in the fire
Rubbing ignorance into our eyes, we're blind, so blind
To all the world's injustice got both feet in the fire
Rubbing ignorance into our eyes, we're blind, so blind
To all the world's injustice we're so blind
To all the world's injustice we're so blind
To all the world's injustice we're so blind
To all the world's injustice we're so blind
