There couldn't be more anarchy if we tried
Your liberty is irony living free takin' a ride

We walk on the line of hypocrisy
We're all out of time but I don't wanna leave

Starting over today
It ain't in my head I'm stuck with you
Like glue

All the killer bees casualties everybody's paying a
price
I'll pollute the sea hug a tree undercook your meat and
You'll die

In another time I almost believed
We're both out of line thinking that we're free

Bored enough of the games
It ain't in my head I'm stuck with you
Like glue
