When I feel alone I need to find the energy
That I feel when I'm with you
Holding on to everything that I can reach
That I think is part of you
Over and over
When my fears have won
And I feel I'm losing you
Ooh you're making me feel
Like a day that'll never see dawn
Then sun shines
And I feel I can deal with the worst of it
It's a slow ride
And I know I'm not alone
In your sunshine
No reason to reveal the light if I don't see
When I seem obsessed with you
Reeling in elusive fish that I don't need
When it seems I needed you
