I taste words that fell
Out of your mouth
Believing heart and head
That I'd be the on

I'm wishing for so long
On wells run dry and burned out stars
We may be over, love is gone
I will live on...

Shades of discontent
Eye of the storm
Killing all what's left
Right has gone wrong

I'm wishing for so long
On wells run dry and burned out stars
We may be over, love is gone
I will live on...

For so long
On wells run dry and burned out stars
We may be over, love is gone
I will live on...
