(Hess/Lesperance)

I lie awake all through the night
And think of you to break the morning light
Thoughts in my head, gotta make you understand
That love is what you need, won't let you slip through
my hands
You said you'd never leave, and I guess you could be
wrong
I won't have anyone to blame, I won't have anyone at all
With a little love, I keep holding onto you forever
With a little love, we can see it through together
I try to wait and just hold on

There's so many things I believe could go wrong
So I close my eyes, and pray for the day
That we can take all the lies and just throw them away
You said you'd never leave, and I guess you could be
wrong
I won't have anyone to blame, I won't have anyone at all
Chorus
