(Harlan Howard - Gene Myers)

If only you'd of happened to me a long time ago
There might have been a way we'd've found to make
love grow
We just might've found a little bitty happiness I don't
know
If only you'd of happened to me a long time ago.

Now it's kinda late for me to think of what might have
been
That old summer's gone and it ain't never comin' back
again
I've grown to be a negative think of for I never could
win
If only you'd of happened to me baby way back when.

--- Instrumental ---

I guess I better go before I get to where I want to stay
And before I start to sayin' all the things that I'd like to
say
And I could get to thinkin' that we might have a chance
someway
Oh if only you'd of happened to me baby yesterday.

If only you'd of happened to me a long time ago
There might have been a way we'd've found to make
love grow
We just might've found a little bitty happiness I don't
know
If only you'd of happened to me a long time ago.

Oh, if only you'd of happened to me a long time ago...
