I'm standin' on the corner of a busy street  
A lookin' for your face in everyone I meet  
Checkin' every honky tonk in this town  
I'm tryin' to find the places that you hang around  
Oh Lord I'm tired tired of living this a way  
Now I've been waitin' on you baby night and day  
I'm wonderin' if your love will ever turn my way  
But time's runnin' out and I'm slowing down  
I'm tired of bein' just another hang around  
Oh Lord I'm tired tired of living this a way  
[ harmonica - dobro ]  
Now there ain't no happiness in anything I do

I found myself so lonesome when I'm not confused  
What makes just a kind of girl a guy will love  
You've got so many others that you're thinking of  
Oh Lord I'm tired tired of living this a way  
Oh Lord I'm tired tired of living this a way
