He's giving you the eye and you don't seem to mine
I think you're kinda proud of it and it shows
Well if that's how you are I'm glad I learned in time
But baby goodbye is as easy as say as hello
Take it and go take it and go now I guess you thought
that I might beg you to stay
To take it and go take it and go I guess I didn't want it
anyway
[guitar + harmonica]
I was all alone when you came along
And I won't be tasting something that is new to me
I don't wanna love at all unless it's true and strong

If you're gonna be a problem to me alone I'd rather be
Take it and go take it and go...
Anyway anyway
