How's about three cheers for the good guys
Those who work hard every week and get a tear upon
their cheek
When they see old glory waving in the breeze
Yeah how's about three cheers for the good guys
Who feed their kids and love their wife and lead a very
normal life
And never make the headlines or TV
They pay the bills they also fight the wars
They think this land is well worth fighting for
So how's about three cheers for the good guys
And thank God if we're cheering for you
[guitar]
How's about three cheers for the good guys
They don't march and they don't shout so you never
read about

The quiet men who are the backbone of our land
Yeah how's about three cheers for the good guys
Mowing lawns and fixing bikes taking youngsters out
on hikes
And read the news and try to understand
He's Catholic he's Protestant and Jew he's every creed
and color race and hue
So how's about three cheers for the good guys
And thank God if we're cheering for you yeah thank
God if we're cheering for you
