You are the light
You are the light

Well every time we meet
I try to be cool

And mostly I feel like a fool
Well it's nothing you say
It's nothing you do
I guess I'm just crazy for you

Even when you're near
Sometimes you're hard to find
But you keep telling me everything is gonna work out
fine

Well don't you be so cruel
Don't you ask me to stop
We both know you like it a lot
You say go by the rules
You better be smart
Follow your head not your heart

Even when you're near
Sometimes you're hard to find
But you keep telling me everything is gonna work out
fine

You are the light
That burns in the night
You are the light
You are the light

And if I had my way
You'd never be far
Cause you are my guiding star

Even when you're near
Sometimes you're hard to find
But you keep telling me everything is gonna work out
fine

You are the light
That burns in the night
You are the light
You are the light

You are the light
That burns in the night
You are the light
You are the light

You're the light
You're the light
You're the light
You're the light
You're the light
You're the light
You're the light
You're the light
You're the light
You're the light
You're the light...
