Moving faster into your cold heart
This is what you want
Everything seems so annoying
I'm giving all I've got

All I had will disappear
Nothing ever will be clear
I'm feeling down on the upside
I guess the end is near

You won't believe the reasons why
But can you fake it one more time?
I wish I could reach out to you
Without saying I love you

When I get you close next to me
With a shattered ego smile
All the feelings that surround me
Spit on my outstretched hand

Tears dry out on the bothered sky
You grab my heart then you let it cry
My speech of custom gold collides
Now there's no way left to deny

You won't believe the reasons why
But can you fake it one more time?
I wish I could reach out to you
Without saying I love you

You won't believe the reasons why
But can you fake it one more time?
I wish I could reach out to you
Without saying I love you

You won't believe the reasons why
But can you fake it one more time?
I wish I could reach out to you
Without saying I love you

You won't believe the reasons why
But can you fake it one more time?

I wish I could reach out to you
Without saying I love you
