

## Harmful "Good Day To Die"

Visit "[Good Day To Die](#)" on [MotoLyrics.com](https://MotoLyrics.com)

Whenever you start I will always follow you Don't ask  
me why  
I can't help myself I'm still overrated with my pills, I  
can't move all day long just to keep you informed  
I'm staring at the dark, wrinkled half - moons beneath  
my eyes...  
Let me move on and touch the sky... so cut the endless  
line  
When she took my head in her arms and kissed my hair  
so softly I was staring at the skin of her hands  
Nothing really matters...  
I can't help myself I'm still overrated with my pills, I  
can't move all day long just to keep you informed  
I'm staring at the dark, wrinkled half - moons beneath  
my eyes...  
Let me move on and touch the sky... so cut the endless  
line
