Did you really think I loved you baby
Did you really think I really cared
Did you really think I loved you baby
Do you really think that I still care
I was so alone when I met you baby
I badly needed someone who would share
What was going on in my life
And so you were there when I needed you baby
I finally found someone who cared about
What was going on in my life
Did you really think I loved you baby
Did you really think I really cared
Did you really think I loved you baby
Do you really think that I still care
I just needed someone to hold on to
I just needed someone to be there
When I needed him most
You were the one who was there for me baby
You were the one who understood
What was going on in my life
Did you really think I loved you baby
Did you really think I really cared
Did you really think I loved you baby
Do you really think that I still care
Of course I am grateful to you baby
And I want us to remain friends
For the rest of our lives
But I don't want more than friendship baby
I'm sorry if I made you think that
And I'm sorry if I ruined your life
Did you really think I loved you baby
Did you really think I really cared
Did you really think I loved you baby
Do you really think that I still care
Now I've got to find someone else baby
Someone who I'd want to be with
For the rest of my life
And that's what I want you to do baby
Find someone else and try to
Get on with your life
Did you really think I loved you baby

Did you really think I really cared
Did you really think I loved you baby
Do you really think that I still care
Did you really think I loved you baby
Did you really think I really cared
Did you really think I loved you baby
