When I look back  
And think of yesterday  
Memories of you  
Make me feel the pain again  
I remember all the moments  
That we used to share  
And I become aware  
That I may never see you again  
Cause you left me  
I never knew why  
You never looked back  
To say you're sorry  
You make me miss the past  
An' I want you back  
Yeah I want you back fast  
An' I will fight for you  
I'll do everything I can to get you  
And when I saw you with another  
I was sad  
I was blue  
I was missing you  
You make me miss the past  
An' I want you back  
Yeah I want you back fast  
An' I will fight for you  
I'll do everything I can to get you  
I'll do everything I can to get you
