I love you so much
You were my first
And all I wanted was to
Stay with you forever
But things change
And nothing remains the same
Your love for me ceased to be
And before I knew what was happening
You were gone
Freed from me
You're happy to be alone
And I'm the one to suffer
Cause I'll love you forever
But things change
And nothing remains the same
Your love for me ceased to be
And before I knew what was happening
You were gone
If you'd come back to me
I'd fulfil your every dream
I'd wait on you hand and foot
And care for you forever
But things change
And nothing remains the same
Your love for me ceased to be
And before I knew what was happening
You were gone
