You saved me when I was sinking
That started me off to thinking
I want you in my life
And every night I dream
I'm sleeping in your arms
I can't understand why it took me so long
To realise I love you
Life's not worth living without you
And after all this time it hit me
I'm totally in love with you
I've known you for so long
So I know I can't be wrong
When I feel that I need you
And when I'm feeling down
I wanna be rescued by you
I can't understand why it took me so long
To realise I love you
Life's not worth living without you
And after all this time it hit me
I'm totally in love with you
All we were was good friends
But now I certainly wanna be more than just that
Wanna be a big part of your life
Didn't know it when we met
That I'll come to feel I'll love you to death
I can't understand why it took me so long
To realise I love you
Life's not worth living without you
And after all this time it hit me
I'm totally in love with you
I can't understand why it took me so long
To realise I love you
Life's not worth living without you
And after all this time it hit me
I'm totally in love with you
