Tongue tied, black eyed, left for dead  
Obscene, vaccine, excites the head  
Let it bite

I bit your hand and spit it all in pieces  
You're a lie  
And now the truth comes out

Had to leave you all alone  
Now I leave you all alone (and you are)

Hung on a rope  
Out of the way  
Hung on a rope

Fenced in, split ends, can't get it right  
I greased your machine will all my might  
The thought of you is getting old  
Agony I let it go  
Let it go  
Out of a hole I'm digging  
You won't break me anymore  
Now you can swing so proud

Hung on a rope  
Out of the way  
Hung on a rope

I bit your hand and spit it all in pieces  
You're a lie  
Now you can swing so proud

Hung on a rope  
Out of the way  
Hung on a rope

Hung on a rope  
Hung on a rope  
Out of the way
