Away beyond the blue

Away beyond the blue

One star belongs to you

One star belongs to you

And every breath I take

And every breath I take

I'm closer to that place

I'm closer to that place

Yeah baby, I'm gonna meet you there

On the outskirts of the sky

Yeah baby, I'm gonna meet you there

And we will fly

Away beyond the blue

Away beyond the blue

One star belongs to you

This life is but a dream

This life is but a dream

Go gently down the stream

Go gently down the stream
