Lonely tears roll down

As midnight comes around

But I can make it trough

In sweet dreams of you

In the shadow of the night

I still hold you tight

Did, it all comes true

In sweet dreams of you

In sweet dreams I see

The way thing you to be

When your love was thide

And your heart was true

In sweet dreams of you

Oh, I call out your made

And you come to me again

The way you used to do

In sweet dreams of you

In sweet dreams of you

In sweet dreams of you
