"Nothing Really Matters"

Visit "[Nothing Really Matters](#)" on MotoLyrics.com

Educated strippers and cross-dressing vicars
Disgusting politicians and animal petitions
X-rated kid shows and dangerous liaisons
Murder mum & dad, the whole family
Nothing really matters
Anyone can see
Nothing really matters to me
Nothing really matters
Anyone can see
Nothing really matters to me
Drunk on ego & high on cocaine
Driving really fast with nothing much to say
You like to sleep with Barbie, she never talks back
You like to slap her liposuction thighs
Nothing really matters
Anyone can see
Nothing really matters to me
Nothing really matters
Anyone can see
Nothing really matters to me
Incestuous, infectious and totally dependent
You make me sick you make my blood thick
Incestuous, infectious and totally dependent
You make me sick you make my blood thick
Incestuous, infectious and totally dependent
You make me sick you make my blood thick
Incestuous, infectious and totally dependent
You make me sick you make my blood thick
Nothing really matters
Anyone can see
Nothing really matters to me
