I never asked you why
I saw you standing there
I knew it was me
I found you crying
I didn't mean to stare

Hail hail, honey honey
Hail hail, honey honey
Hail hail, honey honey
Oh yeah

You figured me wrong
You thought you knew everything
You never knew me
You never knew anything
You eat up my dirt

Hail hail, honey honey
Hail hail, honey honey
Hail hail, honey honey
Oh yeah

Maybe it wasn't a dream
Maybe you were there
