Yeah
I wanna be with you
Don?t wanna be without you
Every single step of the way
You know that I love you
And I want you to love me too
Show me what you want me to do

You know that men they come and go
Ask any girl you know
It?s the same wherever you go

Takes one to know one you see
I know what I?m singing
No fun, are you having fun?
Takes one to know one you see
I know what I?m singing
No fun, are you having fun?

I?m standing here waiting for
Something to come ?cause I want more
I?ve always wanted more
I?ve always wanted more
Yeah

I?m waiting on the outside
I wanna get inside you
I?m gonna get under your skin
We?re running on empty
But you never will forget me
Whatever will be, will be

You know that men they come and go
Ask any girl you know
It?s the same wherever you go

Takes one to know one you see
I know what I?m singing
No fun, are you having fun?
Takes one to know one you see
I know what I?m singing

No fun, are you having fun?

I'm standing here waiting for
Something to come 'cause I want more
I've always wanted more
I've always wanted more

You're outta love
You love to run away
You let me out
And look the other way
You try to hide
From what I've done, but?
Extra, extra, read all about it
Extra, extra, read all about it
Extra, extra, read all about it
Extra, extra, read all about it
Extra, extra, read all about it

It takes one to know one you see
I know what I'm singing
No fun, are you having fun?
Takes one to know one you see
I know what I'm singing
No fun, are you having fun?
I'm standing here waiting for
Something to come 'cause I want more
I've always wanted more
I've always wanted more
Yeah
