

## Harry "Underground"

Visit "[Underground](#)" on MotoLyrics.com

She heard the voices  
She played with fairies  
She lived a thousand lives?  
I stole it from the underground  
I wasn't expecting to be here this long  
I stole it from the underground  
And now I can't get home (x2)  
He liked to kiss her  
Beast with two backs  
They can share her fire  
I stole it from the underground  
I wasn't expecting to be here this long  
I stole it from the underground  
And now I can't get home (x2)

I stole from, the underground  
I don't live for long  
I stole from, the underground  
I don't live for long  
I stole from, the underground  
I stole it from the underground  
I wasn't expecting to be here this long  
I stole it from the underground  
And now I can't get home (x2)  
I stole it from the underground  
I wasn't expecting to be here this long  
I stole it from the underground  
And now I can't get home (x2)
