Are you scared to walk through the hallways?  
Are you worried that the spiders run away?  
Are you petrified of being petrified?  
Are we going to have to save the school again?

We've got to save Ginny Weasley from the Basilisk  
We've got to save the school from that unseen horror  
We've got to save Ginny Weasley from the Basilisk  
We've got to save the school again

It's been freaking out all the kids  
It even took out Mrs. Norris  
Ate up the film in Colin's camera  
And petrified our friend Hermione Granger

We've got to save Ginny Weasley from the Basilisk  
We've got to save the school from that unseen horror  
We've got to save Ginny Weasley from the Basilisk  
We've got to save the school again

You can't take my best friend's sister  
You can't take my best friend's sister  
You can't take my best friend's sister  
And get away with it

We've got to save Ginny Weasley from the Basilisk  
We've got to save the school from that unseen horror  
We've got to save Ginny Weasley from the Basilisk  
We've got to save the school again

We've got to save Ginny Weasley from the Basilisk  
We've got to save the school from that unseen horror  
We've got to save Ginny Weasley from the Basilisk  
We've got to save the school again  
We've got to save the school again
