Chickens

We've had some chickens  
No eggs would they lay  
We've had some chickens  
No eggs would they lay

My wife said: Honey  
This isn't funny  
We're losing money  
Why don't the little chickens lay

One day a rooster  
Came in to our yard  
And caught those little chickens  
Right off their guard

Their laying eggs now  
Just like they're used to  
Ever since that rooster came in to our yard (into our  
yard)

Their laying eggs now  
Just like they're used to  
Ever since that rooster came in to our yard
