Harry: "And the excitement continues to build! Eat your heart out, Peter Frampton.")

It seems like two months  
'Though I met her tonight  
Something just told me  
It would work out alright  
So I asked her to act out  
What was there in our heads  
No need for games, babe,  
Let's hop into bed  
(audience reacts, Harry says, "I figured that'd get ya.")  
That's when I said

"Oh, get on with it  
Let's get it done  
Life is made up of moments  
Let's not miss this one  
Oh, get on with it  
Before it's too late  
We know where we're going  
There's no, no, no, no need to wait."

But that's when she says  
"Let's take it slowly  
You don't really know me  
If we make it holy  
Maybe it will last  
What is your hurry  
You don't need to worry  
The one thing we know  
Is that time, time, time goes too fast."

Soon it's working so well  
I got her moving in  
All the permanent thoughts  
Already begin  
You see she is the woman  
That I want for my wife  
I say, "Let's set a date, babe,  
And get on with our life."  
And that's when I said again

"Oh, get on with it  
Let's get it done  
Life is made up of moments  
Let's not miss this one  
Oh, get on with it  
Before it's too late  
We know where we're going  
There's no, no, no, no need to wait."

But once again she says  
"Let's take it slowly  
Still you don't know me  
If we make it holy  
Maybe it will last  
What is your hurry  
You don't need to worry  
The one thing we know  
Is that time, time, time goes too fast."

I don't know what happened  
As we moved along  
But all of a sudden  
It came out all wrong  
She said, "It's all over  
Let's not drag out the end  
If we split up now  
Then at least we'll stay friends."  
And that's when she said

"Get on with it  
You know it's all done  
We had our moments  
Don't dwell on this one  
Oh, get on with it  
You know it's too late  
Oh, yes, it's all over  
There's no, no, no, no need to wait."

But that's when I say  
"Let's take it slowly  
You know how you know me  
And once it was holy  
Don't give up so fast  
What is your hurry  
You don't need to worry  
The one thing we know  
Is that time, time, time goes too fast."
