A new day is beginning
I can feel it in my bones
It's not what you are winning
It don't matter what you own
It is more than just a feeling
More than just a song
It's something like a healing
And I feel it coming strong
Oh yeah, ah yeah

We have got our history
Our secrets are all known
And if we've lost the mystery
At least we both have grown
They'll be strangers in our future
Changes in our world
But a man can love a woman
More than a little boy a girl
Oh yeah, ah yeah

Yes, I finally found it Sandy
Maybe this time babe you can
understand me
It really weren't so complicated after all
For I've been down so far, I ain't got so far to fall
There only is this one bluff left for me to call
Can't you see
I can set you free now
And for the first time
I can offer you me

Ah, all the times I've known you
I've been frightened to the core
I know I've tried to own you
But I did not see before
A relationship is more than a warm
body and a smile
You can give me much more if you're
growing all the while
Oh yeah, ah yeah

I finally found it Sandy

Maybe this time babe you can
understand me
It really weren't so complicated after all
For I've been down so far, I ain't got so far to fall
There only is this one bluff left for me to call
Can't you see
I can set you free now
And for the first time
I can offer you me

I hope that this takes me where it
takes you
Maybe we can make a break through
I don't know where I'm going
But I hope it is with you
Let's make this a partnership we both
can offer to
It's amazing we're together after all we
have been through
Our only choice is whether we've got
learning left to do

Oh yeah, oh yeah
I finally found it Sandy
Maybe this time babe you can
understand me
It really weren't so complicated after all
For I've been down so far, I ain't got so far to fall
There only is this one bluff left for me to call
Can't you see
I can set you free now
And for the first time
I can offer you me
