

Harry Connick, Jr. "Booker"

Visit "[Booker](#)" on MotoLyrics.com

And the warden said
"he won't need a cell
He has the key
There's no harsher sentence
The man's doin' life
In the first degree"

Some people seek to set blame
Some just accept their part
And now you know why
Booker died of a broken heart

And the priest said
"i can take confession
But not the sin
The church is shelter
Not the faith
Son, that's within"

Some people pray for fortune and fame
Some just play a part
And now you know why
Booker died of a broken heart

And the doctor said
"i can see you're hurt
Just by lookin' at you
Pain we can help
But for hurt
There's nothin' we can do"

Some people pick up the pieces
Some just leave them apart
And now you know why
Booker died of a broken heart
