I know a girl  
Who says she loves me  
She says she needs me  
And I have reason to believe her  
Good reason

Like when we kiss  
My eyes won't open  
My heart won't listen  
And I don't have a word to say  
No, not a word

Look, my darling  
And you'll hear me sing "i love you"

With my eyes  
Let me hold you  
Really hold you  
Then you'll know my heart

Just can't tell lies  
It knows a true love  
It knows it's you, love  
And it knows that you say  
You love me  
And I say I love you, too
