dont go changing, to try to please me
never let me down before
dont imagine, your too familiar and i dont see you
anymore
i wouldnt leave you in the time of trouble we never
could never come this far
itook the good times and ill take the bad times ill take u
just the way you are
dont go tryin...some new fashion
dont change the color of the hair
you always have my unspoken passion although i might
not seem to care
i dont want clever conversation
no
i never want to work that hard
i just want some one that i can talk to
i want you just the way you are..

i need to know u will always be....the same old someone
that i new..
what will it take till u believe in me the way that i believe in
you...
said, i love you
and thats forever
oh alright
yes i promise from the heart
..uhhmm
i could not love you any better
i love you just the way u are, i love...you...just...the way
you are!
