Promise me you'll remember
This love together today
We may not have tomorrow
It's not for us to say

Fate isn't kind to lovers
It breaks the hardest hearts
Promise me you'll remember
How good we are

Why do I find the sadness
Under your sweetest kiss
Destiny seems to whisper
It won't stay like this

Whenever we're together
I feel time standing still
I only know I love you
And I always will

If we should lose each other
Somewhere inside the dark
Promise me you'll remember
How good we are

Whenever we're together
I feel time standing still
I only know I love you
And I always will

If we should lose each other
Somewhere inside the dark
Promise me you'll remember
How good we are

Time isn't kind to lovers
It breaks the hardest hearts
Promise me you'll remember
How good we are
