Some people say
There will be no other day
Some say the end is near

Some people sit and cry
Screaming, asking why
Living is this world, were so many people are hurt

Fly on your wings
Fly up in the sky
Fly on your wings, and don't ask me why

So don't sit here and cry

When you've got wings to fly
Fly away from this world were some many people are
hurt

Just flew away
Just flew away

Fly on your wings
Fly up in the sky
Fly on your wings, and don't ask me why

There is a reason why
