Hey Mr.President, don't you understand, we don't want  
your crazy fight  
Why are you so angry then, a quarrel with your wife? Or  
a restless night  
Don't you realise the power you have, you got to be so  
strong  
The whole world depends on you, war is so wrong

Didn't you learn from 9/11? you've been struck from  
behind  
People who are so desperate, lose their mind  
Does it really matter when a man dies, if he's a  
Palestinian or a Jew?  
It's a bloody shame Mr President, they got children too

Why do all Americans think they're better? Committing  
the same crimes  
Oh America how will you cry, when your first soldiers  
die  
It's time for a change, the world is out of range  
We must brothers, all over the world

#### Chorus 1

We got to live together, We got to live in peace  
There is just one world, we got just one world  
We don't want this war, we don't want this war

#### Chorus 2

Love to all the people, brotherhood of man  
It's not so far away, it's not so far away  
Lets us share our world... lets us share our world
