Hey Mr.President, don't you understand, we don't want
your crazy fight
Why are you so angry then, a quarrel with your wife? Or
a restless night
Don't you realise the power you have, you got to be so
strong
The whole world depends on you, war is so wrong

Didn't you learn from 9/11? you've been struck from
behind
People who are so desperate, lose their mind
Does it really matter when a man dies, if he's a
Palestinian or a Jew?
It's a bloody shame Mr President, they got children too

Why do all Americans think they're better? Committing
the same crimes

Oh America how will you cry, when your first soldiers
die
It's time for a change, the world is out of range
We must brothers, all over the world

Chorus 1
We got to live together, We got to live in peace
There is just one world, we got just one world
We don't want this war, we don't want this war

Chorus 2
Love to all the people, brotherhood of man
It's not so far away, it's not so far away
Lets us share our world... lets us share our world
