In the morning you wake up, although I think you are sleeping
Eat your breakfast with juice and eggs, while others are creeping
You with your fancy cars and things, you act like you own the world
Why do you take it so easily, are you just too blind to see?
That our world is going down, so much wrong
If we want we can change it all, together we are strong

We got to do something, don't think it's too late
We got to do something, to ease the pain and hate
Get out of your lazy chair, there are problems everywhere
Let's give a helping hand, knowing they will understand
Not alone, you are not alone, we are not alone

How can you sleep at night, knowing there's a child in jail?
And the real criminals, out there on bail
While politician lie, the innocent die
Stand up now, don't act so shy
We got to do something, don't think it's too late
We got to do something, to ease the pain and hate
Get out of your lazy chair, there are problems everywhere
Let's give a helping hand, knowing they will understand
Not alone, we are not alone, you are not alone

How long it will take till we see the light?
How long it will take to end the fight?
How long we must go on before we see through the show.

We got to do something, don't think it's too late
We got to do something, to ease the pain and hate
Get out of your lazy chair, there are problems everywhere
Let's give a helping hand, knowing they will understand
Not alone, we are not alone, you are not alone
You are not alone, you are not alone
