[Brown Boy] + (Lorene Rose in background)

Yeah

Come on, girl

You know I love it when I'm next to you (When I'm next to you)

Yeah, when I'm next to you

Only you, girl (Oooh)

Mmm

Come on

Chorus:

[Lorene Rose] When I'm next to you

[Brown Boy] I feel my heart going boom boom boom

[Lorene Rose] When I'm next to you

[Brown Boy] I wanna do all the things that you wanna do

[Lorene Rose] When I'm next to you

[Brown Boy] I can tell that I'm so in love with you

[Lorene Rose] When I'm next to you

(Verse 1)

[Brown Boy] I probably go crazy if I didn't have you, baby

Cause every little thing that you do, you amaze me

It's the way that you walk

Your boy so soft

I love it when you talk

Whisper in my ear

[Lorene Rose] Will you always be here

[Brown Boy] Cause I need you near

Living in my world

Standing by me, girl

I would never give you up

Not even for a million bucks

I must've been hit by an arrow

Shot by Cupid

Or could it be something you did

Cause my love for you

Only grows and grows

I wanna love you down, from your head, to your toe

Makin' love slow

Anyway you want it  
Girl, you got me high on your sex like  
Chronic  
Your way  
Right away  
Let that Secret out  
When you wear that lingerie

Repeat Chorus

[Verse 2: Brown Boy]  
Like a touch of a rose  
Our lips come close  
The scent of your body  
Makes me naughty  
Your pretty brown skin  
Makes me sin  
I could never get enough  
Even if you had a twin  
Cause you got that touch, that special touch  
Ain't no love lost, cause I love you too much  
Ain't no need to rush  
Let's take our time  
And let's rewind  
To the day we first kissed  
Set Adrift On Memory Bliss  
I thank God  
For sending me this  
A girl like you  
Simple and cute  
Don't care about my money  
Cause you make your own loot  
You're amazed by the smaller things  
And what life brings  
You think about the future  
And what it could be  
Just you and me  
In ecstasy  
Reality  
Or a fantasy

Repeat Chorus

(Verse 3)  
[Brown Boy] As the years a-passed, and the days gone  
by  
I thank you, girl  
For standin' by my side  
Better pick me up when a teardrop falls  
From my eye  
That'll put a smile on my face

When I frown  
"Daddy, gimme kisses and hugs"  
And when I'm down, forget about the rose, go around  
Cause I only want you and only you  
And girl, that's true, cause you know  
[Lorene Rose] When I'm next to you  
[Brown Boy] I get this feelin' inside  
That I just can't hide  
No explanations  
No room for temptations, your sexy little style  
You drivin', meanwhile, got me feeling on your booty  
Doin' my duty  
Sittin' in paradise  
Sippin' on somethin' nice  
You'll never think twice, I took a chance on your lovin'  
When I rolled the dice  
And you know that, girl

Repeat Chorus

[Lorene Rose]  
When, I'm  
Next, to  
When I'm  
Next to
