"Dry"

I caught it in the face
Coming around again
I thought it was worth waiting
You're caught up in my head
Wet sides from time to time
But mostly I'm just dry
You leave me dry
You leave me dry
You leave me dry
You've come all this way
No hair out of place
You put it on the stage
You put right in my face
You leave me dry
You leave me dry
You leave me dry
No water well in sight
No water on my size
I'm sucking on the well
I'm sucking 'till I'm white
But you leave me dry
You leave me dry
You leave me dry
You leave me dry
You leave me dry
