I tend to forget when I drink
I'm doing it again I think
A hand to hold an ego to flatter cause you were the
wineskin and I was the bladder
Time passes and events fall away and
I don't think they'll hurry up hurry up
I'm blacking out high on the vapor cause I was the typo
you were the liquid paper
Talkin over talkin over talkin the answers still the same
Discontent humiliation cause you were the theme and I
was the variation

Try to take the less frenetic
Course of action
Introspection diction ooohh prediction
Breaking my heart again
Breaking my heart
