Love me tenderly my darling
In the city of light and truth
For this moment forever sing
For my darling that i love you
City of no sun
No peace in my heart
You left me nothing
You left me broken
What's ...
What's ...
What's ...
Love me
Love me
Outside the fields

In sunlight
The singing breeze
And the silence
Lover release me
I can't feel i can't breathe
No heart no peace
No more nothing
Long day long night
..
Love rise
Love rise
