Here I am  
Parieland  
Got it all, got gun in hand  
Here I sleep  
Dungarees  
That all my husband put on me

We have the stars  
We have the trees  
We have everything we need to feed

I'll make babes, you'll make chairs  
We'll sell them at the country fair  
We'll walk on, we'll walk tall  
We'll dance once a week [at] the union hall

We'll have the stars  
We'll have the trees  
We'll have everything we need to feed

Here I am  
Parieland  
I got it all, got gun in hand  
I'll sweep the porch  
I dust his room  
We'll sleep together on our chair at noon

We have the stars  
We have the trees  
We have everything we need to feed

We have the stars  
We have the trees  
We have everything we need to feed
