I'm coming up man-sized skinned alive
I want to fit I've got to get
man-sized I'm heading on
handsome got my leather boots on
got my girl and she's a wound
I cast my iron knickers down
man-sized no need to shout
can you hear can you hear me now
I'm man-sized
man-sized
I'll measure time I'll measure height
I'll calculate my birthright
good lord I'm big I'm heading on
Man-sized got my leather boots on
got my girl and she's a wound
I cast my iron knickers down
man-sized no need to shout
can you hear can you hear me now
my babe looking cool and neat
I'm pretty sure good enough to eat
I'm man-sized no need to shout

let it all let it all hang out
I'm man-size
man-size
man-size
man-size
man-size
man-size
man-size
man-size
silence my lady head
get girl out of my head
douse hair with gasoline
set it light and set it free
silence my lady head
get girl out of my head
douse hair with gasoline
set it light and set it free
