I've been waitin' on that how down train  
It's been a long, long weak  
And I swear nothings gonna get in my way  
With my high heels on and my Wrangler jeans  
My favorite wet 'n wild lipstick number 503  
It's time right now, let's throw it down

All you girls stand up, throw ya hands up  
Come on let's rock, gonna go all night  
Gonna watch the dust fly, show 'em what we got  
Come on let's take a ride on the top of the world  
All you soul shakin', heart breakin' lil' cowgirls

Woo yee haw

Three shots in and we're up on that bar  
Everybody cheers us on and we shine  
Like crushed gold stars, turn that jukebox up  
Lay your money down, all you cowgirls here  
Yippee yay coyote for another round  
Jump on in here we go again

All you girls stand up, throw ya hands up  
Come on let's rock, gonna go all night  
Gonna watch the dust fly, show 'em what we got  
Come on let's take a ride on the top of the world  
All you soul shakin', heart breakin' lil' cowgirls

Yee haw

Just when you think the nights all done  
We're just getting started to have a lil' fun

All you girls stand up, throw ya hands up  
Come on let's rock, gonna go all night  
Gonna watch the dust fly, show 'em what we got  
Come on let's take a ride on the top of the world  
All you soul shakin', heart breakin', love makin' lil'  
cowgirls  
Lil' cowgirls
