Her warm embrace and loving touch she's more than a  
woman to me

And every time I take a hit, she is sheer rhapsody

No other woman gives constant joy and brings to  
darkness light

I'm singing for all your placid fragrance, the one true  
joy in life

A shining spirit took to me, she travels 'round, she  
burns

And everything was a - o.k., enchantments which I've  
learned

'Cause a faithful woman never leaves, she breeds on  
pleasing you

And I invoke her everyday my inspiration true

Mary I wanna be with you
