Watching... (1) watching my friends make, (2) all the things ive done, (3) you make the same...

Mistakes...(1) how they make things change, (2) thought i wouldn't make, (3) that you watched me make

Regret...(1) i hope i wont feel, (2) can't remove this pain, (3) the same things i do

Learning...(1) from their mistakes, (2) things the hardest way, (3) things taught too late

Wisdom...(1) i learn from watching, (2) that ive gained too late, (3) gained from someone else

Feeling...(1) for the strength to make, (2) smarter by the day, (3) that i recognize

Decisions...(1) that would seem smarter, (2) that i failed to make, (3) that i once had faced

Integrity...(1) is what i strive for, (2) that i can't obtain, (3) part of saving face

...if you could see how, though time ive wasted on, I'll give you everything in time,

I will, hold myself down, i will ive wasted on a chance for you to prove

Watching...mistakes...regret...learning...wisdom...feeling...decisions...integrity

Everytime i feel im bigger, realize i am the same, and you're knowing what im feeling

But i think i should escape myself and watch it all slip by and you're knowing what im feeling

Situations i fall short in where i thought that i would gain and you're knowing what im feeling

But i think you should escape yourself and watch it all slip by

Watching...mistakes...regret...learning...wisdom...feeling...decisions...integrity

...if you could see how, though time ive wasted on, I'll give you everything in time,

I will, hold myself down, i will ive wasted on a chance for you to prove
